

Aledo ISD Summer School – 2021

Dear Aledo ISD Student/Parent:

Aledo ISD is excited to offer summer school courses for the summer of 2021 through the Texas Virtual School Network. TxVSN offers accredited high school courses to supplement regular instructional programs. The courses available this summer will only be for original credit, not re-taking classes that have previously been taken.

Students may identify themselves with academic needs and learning styles appropriate for online learning by taking a pre-assessment for readiness of online learning. Currently, students are limited to two (2) courses per summer session (maximum of 1 credit for the summer session). Fees are charged for each course and will vary by the course and provider.

The timeline for completing summer courses is set by the course provider. Students must follow the schedule and guidelines set in each course. Summer courses taken as a graduation requirement will count toward academic UIL “No Pass/No Play” and maintain the same eligibility calendar provided by Aledo ISD. (Note: all courses will appear on the transcript, but will not be factored in the calculation of GPA). The following courses will be available in Aledo ISD in the summer of 2021 (other courses may be considered upon request):

- Speech (all grades)
- Health (all grades)
- Government (going into grade 12, graduation requirement)
- Economics (going into grade 12, graduation requirement)
- Physical Education (all grades, graduation requirement)
- Psychology (going into grades 10-12, counts as elective credit)
- Sociology (going into grades 10-12, counts as elective credit)

Please note: As deemed by course provider, exams for summer courses taken via TxVSN will be administered by the Aledo ISD summer school coordinator at the Aledo ISD Administration Building at an agreed upon time.

If you have any questions, please contact Aledo ISD Summer School Coordinator Scott Kessel at 817-441-5161 or skessel@aledoisd.org.

Sincerely,

Aledo ISD
