

# Class Information

## AP CS Principles 2021-2022

### Supplies

- Folder or small binder
- Pencils
- Earbuds or headphones for your device

### Grading Policy

- 60% Tests / Projects and Large Labs
- 40% Labs / Notebook / Daily Work

The opportunity to redo/retest is a one-time offering per summative assessment, on which the student earned a 79% or below. The higher of the two grades will be recorded in the gradebook for a maximum grade of 80%. Reassessment must occur within 10 days of the original assessment.

The opportunity to redo a formative assessment is a one-time offering for students scoring lower than 100%. Students will have 5 days from the time the original grade is posted to begin the redo process.

If you receive a zero for not turning in an assignment on time, you have three days to turn in the assignment. Ten points are deducted for each day that the assignment is late. After three days no grade higher than a 50 will be allowed. The redo policy is not applicable to late assignments.

### Tutorials

Extra help will be available during Flex time. My Flex schedule will be posted in the room. Tutoring will also be available one morning and one afternoon a week. Once the tutoring schedules are set the information will be available in Canvas and on my teacher website.

**Make-Up Work**

1. It will be **your** responsibility to make up any work missed due to an absence.
2. Due to the nature of the course, tutorial time will most likely be needed to complete missed assignments. Please arrange a time with me to use the computer lab either during my tutorial times, or after school.
3. One day for each day absent will be allowed to complete the make-up work.

**Progress Reports** will be given to any student with an average of 75 or below after the third week and the sixth week of the grading period.

**Semester Exams** will count as 10% of the semester average. Students who take the AP Exam will be exempt from the Semester Exam.
